

The Janesville Daily Gazette.

VOLUME 24

Entered at the Post Office at Janesville, Wis., as second-class matter.

JANESVILLE, WISCONSIN, FRIDAY, FEBRUARY 18, 1881.

Published Every Evening Except Sunday, at \$7 a Year.

NUMBER 294

The tendency of the Democratic party is to go under, and under it is going.

General Garfield will select his cabinet with as much ability as he holds his tongue.

If the Legislature keeps on indefinitely postponing bills, it will soon get down to business.

The President has provided for Mr. Tom. Nichol, and now Dr. Mary Walker should not be forgotten.

There are two members of the Arkansas Legislature who did not know enough to know where they were born.

It will be a surprise to some to understand how the government got along for so many years without Tom. Nichol.

The female suffrage bill which passed the Legislature last year as a joke, may pass this year, and thus prove a joke on those who thought to play a joke on the women. It will be thus seen that it does not always pay to play a joke.

The obelisk, or Cleopatra's needle, will be formally presented to the city of New York on Tuesday of next week. It will then be in place and ready for the public gaze. Secretary Evans will do the talking, Theodore Thomas the music, and the crowd will do the cheering.

The Grand Temperance Council of Indiana recently passed a resolution favoring the local option law, and strange as it may seem it has also drafted a bill for the Legislature authorizing the sale of liquors in quantities not greater than a quart to be drunk on the premises.

Senator Richardson, of Janesville, is in favor of Senator Sutherland's bill, so far as the management of the two hospitals are concerned, but will oppose it, if it includes the Janesville institution for the blind.

Will the Madison Democrat please inform us when it was authorized to become the mouth-piece of Senator Richardson?

There is an effort being made in Congress to appropriate \$175,000 to send a vessel in search of James Gordon Bennett's steam yacht Jeannette which started for the Arctic region several months ago. This is nonsense, but if the river and harbor committee and the committee which reported in favor of the \$175,000, could be sent in the direction of the Jeannette, there would be no serious objection to the bill.

There is a report that President Hayes and Senator Conkling have made up their differences, and that they will become mutual friends. The President will withdraw the nomination of Foster to be United States district attorney of New York city, and in return Senator Conkling will weaken in his opposition to the confirmation of Stanley Matthews. It may be that President Hayes and Senator Conkling will dine together before the 4th of March.

The contents of the North American Review for March must win the attention of all by the timeliness of the topics discussed. First, we have a thoughtful and moderate article by Bishop Cox on "Theology in the Public Schools." The author would sternly exclude from the school room all sectarian dogmas, whether Papist or Protestant, but he insists on the retention of the bible, first because that book is the principal fountain of our English speech, and secondly because it is really the base of our social system. The second article is by Captain Eads, who endeavors to show the practicability of his ship railway, its advantages over all canal schemes, and why the United States can without risk guarantee the payment of 6 per cent. interest on \$50,000,000 of the capital stock of the proposed company. Judge H. H. Chalmers, writing of the Effects of Negro Suffrage, bespeaks for the Southern States, while engaged with the solution of the great problem that has been forced upon them, the sympathy and counsel of the North. The other articles are "The Free School System," by John D. Philbrick, being a reply to the recent strictures of Mr. Rich and Grant White on the public schools; "Theological Charlatanism," by Mr. John Fiske, whose typical theological charlatan is Mr. Joseph Cook; and, finally, a review of some recent publications in Physics, by Prof. A. W. Wright.

WHY THE SUTHERLAND BILL SHOULD NOT PASS.

Senator Sutherland has introduced a bill which makes a radical change in the management of the charitable, reformatory, and penal institutions of this State. It abolishes the State board of charities and reform, and wipes out the boards of trustees of all the State institutions. In place of these boards the Governor shall appoint a "State board of supervision of Wisconsin charitable, reformatory, and penal institutions." This board shall consist of three disinterested persons, distinguished for their integrity and ability, but any person who is under thirty years of age, or over fifty years, is proscribed from holding a position on the board. Each member of the board shall receive \$3,000 a year besides his traveling expenses, and the term of office shall be six years, except that the members first appointed shall go out of office, one in two, one in four, and the other in six years from the date of appointment. The board is authorized to hire a clerk whose salary shall be \$2,000.

The duty of this board of supervision shall be to "run" all the State institutions with as much power as is now held by the superintendents of each. This board shall "govern" every State

institution; to be supreme in dictating how it shall be managed; to purchase supplies; to visit each institution at least twice every month; to credit all bills against the institution once a month; to hire officers, teachers, servants, and employees, to fix the pay of each, and to even prescribe the duty of each; to act as commissioners of lunacy and to examine into all questions of insanity, with power to discharge from the hospitals of the insane all persons who should not be restrained.

In addition to this board of supervision, the Governor shall also appoint a commissioner of public charities, who shall hold his office for two years and shall likewise receive a salary of \$3,000 and traveling expenses. This commissioner shall be, in fact, a State board of charities and reform, as his duties prescribed in the bill are such duties as are now imposed upon the State board, which it seeks to abolish.

These are the general features of Senator Sutherland's bill, and the question, "shall it pass?" is quite an important one. What the people of the State want in regard to our charitable and penal institutions, is skillful management so far as medical treatment and teaching are concerned, and they also demand the practice of wise economy. Now, can this be done more successfully under this bill than under the present system? Let us see.

Under the Sutherland bill, provision is made for five salaried persons, whose aggregate salaries reach \$14,000 a year. The traveling and other necessary expenses of these persons, as they will be on the road most of the time, will amount to more than \$6,000, which will make the annual expense of this system of management more than \$20,000. Under the present system the cost is not more than one fourth that amount. The expenses of the State board of charities and reform last year were \$2,600, and the expenses of the local board of trustees of the State hospital for the insane for 1880, were \$666, and the board of trustees of the Institute for the blind, will not reach \$200. At a fair estimate, the entire expenses of the local boards of all the State institutions will not exceed \$3,000; and here we have a difference of \$15,000 in favor of the local board system. But Senator Sutherland claims that this difference can be more than made up by purchasing supplies for the institutions at "wholesale rates." This claim is the sheerest nonsense. The supplies for the institutions are now purchased at extremely small margins so that under no circumstances could the new board of supervision save what is claimed could be saved.

Our State institutions as a general rule, have been, and are still, managed with commendable economy. Complaints have been made against the two hospitals for the insane, but a remedy can be applied if a remedy is demanded without adopting the sweeping and arbitrary provision of the Sutherland bill. The local board system has proved not only economical in this State, but it has proved quite efficient. The Sutherland system could not secure better qualified superintendents or more faithful teachers and employees than are now secured. It could not insure higher service from them, and it would be the extreme foolishness for the board of supervisors to attempt to dictate to a superintendent of one of our State institutions what is his or her duty, when the members of the board would be entirely inexperienced, whereas on the other hand the superintendents over which such arbitrary authority would be exercised, would be persons who have spent many years in study and practical experience in their professions. Beside these serious objections to the Sutherland bill, it will strike every careful reader and thoughtful man that such a system as proposed by Senator Sutherland is unnecessarily expensive. It creates fat offices, but gives the State no benefit in return.

THROUGH LOVE.

Oconomowoc, Feb. 17.—Quite a sensation was caused in the State industrial school at Waukesha yesterday by the discovery that one of the female employees had aided in helping the inmates to escape. For several months back the boys have managed to get away, but have been recaptured. Two weeks ago one of them escaped, and no trace could be found of him. Yesterday a letter written from the school, and addressed to the writer, was returned to the writer, and when opened was found to be from the woman aforesaid, and contained a warning that the officers were on his track. On investigation several other letters were found from the boy, all in the nature of love-letters. Whether he was in earnest or not it is hard to tell. Circumstances tend to show that the boys had discovered the woman's weakness, had made love to her, and she had helped them to escape. She is about 40, while the boys are none of them over 20 years old.

THE ELECTRIC LIGHT.

DENVER, Feb. 17.—The city council tonight accepted the proposition of C. C. Rutherford and others for lighting the entire city by the Rush electric light for two years at \$14,000 per annum. The light to be furnished is guaranteed to be four times greater in aggregate than could be furnished by the same number of gas lamps. The city is to be given 30 days trial of the light before its formal acceptance.

A prisoner when asked what trade he wanted to learn said: "If there is no objection, I would like to be a sail-

FROM MADISON.

Special to the Gazette SENATE.

MADISON, February 18.—The Senate agreed in the caucus this afternoon to appoint Price, Scott, and Ryland committee on redistricting the State on the part of the Senate. Rankin will probably represent the Democrats on this committee.

A number of local bills passed the Senate relating to the number of districts.

ASSEMBLY.

A resolution was introduced authorizing the speaker to appoint a committee to consider the question of a constitutional convention resolution providing for a salute of one hundred guns to be fired on the 22d. Adopted.

Bills were passed amending the charter of Platteville.

Twenty-six agricultural appropriation bills were killed.

Both houses adjourned until evening with the prospect of a Saturday session.

CONKLING'S PILGRIMAGE.

Some Talk About It. The President-Elect Will Work to Be His Own Successor.

New York, February 17.—Local politicians have had a good deal to say today concerning Senator Conkling's visit to General Garfield, at Mentor, and all sorts of surmises have, of course, been indulged in. One of the Senator's most ardent admirers said to-day, relative to the rumor that had got out that Conkling had been offered the treasury portfolio, that he didn't think it at all likely. He preferred his own place in the Senate to a cabinet office. The gentleman said, further: "Garfield is no fool in politics. On the contrary, he is well skilled in the arts of the adroit politician, and it is his proficiency in this regard that will carry him through the storm that will be raised as soon as the Cabinet is announced. The incoming President wants to be his own successor. Unless something unexpected happens he will certainly be re-nominated. He will depend in a large measure upon the assistance of what the weaker elements of the Republican politicians are pleased to call 'the machine-men.' In order to secure this support, he will have to be on good terms with Conkling." He did not believe Garfield would follow in Hayes' footsteps, so far as New York appointments are concerned. "Of course," he said, "the twenty who broke from the Utica instructions will get something; but it will be very little. Whatever the composition of the cabinet, it is, to my mind, a settled fact that there will be a complete change in the distribution of patronage. The stalwarts will have full swing in the custom house, and the hybrid nominations Hayes has sent in for the Federal offices in New York will be knocked higher than a kite, or permitted fall by their own weight. Why, there is something ludicrous in the claims of Foster and Jacobus. The former is a mere accident in politics, having stepped into the State Senate through a Democratic split, and made himself conspicuous in that body only by his obstructive tendencies."

"What if the stalwarts are ignored?" "Such a supposition is out of order. It would be as reasonable to expect a General to order his reserves to open fire upon his veterans, who had just carried a fortress by storm, as to expect Garfield to turn his back upon the Conkling men, every one who is posted knows that they represent the real Republican strength of this State, and that, even if they had remained quiescent last fall, Hancock would have carried New York by fifty thousand majority. Oh, no, Garfield is a candidate for a second term would not care to be confronted in the next National convention with the shining swords of the Conkling Legionaries. I would not be a cheerful outlook for the man of Mentor, and he is sharp enough to see that contingency from afar off. Mark what I tell you, the understanding between the President-elect and our people is cordial, and that we shall ride on the crest of the wave of success. We may not get the treasury department, but we will get enough both in the cabinet and outside of it to indicate that our services are thoroughly appreciated, and that the material and political

importance of the State are fully recognized."

JUDGE DAVIS' ATTITUDE.

The Independent Senator from Illinois Will Sit On the Fence Again.

WASHINGTON, D. C., Feb. 17.—A prominent gentleman who is intimate with Senator Davis, of Illinois, to-day said that the latter would vote to maintain the present organization of the Senate; that Senator Davis said that a movement by the Republicans to reorganize the Senate would be entirely and essentially a partisan effort, for the benefit solely of the Republican party and that to support such a movement by his vote would be for him to sustain "rank and partisanship," while in voting to continue the present status he maintains his independence. Therefore, if any change is made in the Senate it must be by General Mahone voting with the Republicans, unless Pennsylvania shall delay the election of a Senator until after the 5th of March. That would leave the Democrats an easy victory.

KNIGHTS OF HONOR.

MILWAUKEE, Wis., Feb. 17.—The Grand Lodge of the Knights of Honor is in session here, the State being well represented. Grand Dictator W. E. Howe, of Oshkosh, in his annual address stated that from January 1, 1880, to January last, only twelve assessments were made and since the last annual meeting only eleven. The past year had been the most economical in the history of the order in the States. During 1880 there had been but 642 deaths in the United States, on which the insurance aggregated \$1,270. From these figures it is estimated that the total membership in the United States is 106,000, a gain of 25,000 over the previous year. The total membership on the first of the present year was 1,373, a gain of sixty. Only two lodges were suspended. Business to-day was routine in the main. The election of officers will take place to-morrow.

WILL FORGERS.

NEW YORK, Feb. 17.—In December last, four persons—three men and a woman—living in Hudson county, N. J., on the death of a man with whose affairs they were intimate, drew a bogus will, had it admitted to probate, and secured a portion of the estate and Christian Kline, and a man named Pfeiffer and his wife, have been arrested for participation in the forgery and trial.

SENATOR SUTHERLAND'S BILL.

To the Editor. From a careful reading of Senate bill No. 185, relative to the management of our State penal and charitable institutions, we are forced to the conclusion that it would be unwise to pass the bill, for the following and other reasons:

1st. The present law pre-supposes that each member of every local board of trustees will be vigilant and watchful of the interests of the State; if any prove lax and reckless, turn them out and put in those who will do their duty. Can see no good reason for supposing that abuses would be more carefully guarded against under the bill, as proposed; and are satisfied that the interests of the several institutions would be better subserved under the present system.

2nd. There is reason to believe that the entire trustee expenses of all our State institutions including those of the State board, will not amount to the sum of five thousand dollars. Under the provisions of this bill they would exceed twenty thousand dollars. From an economic standpoint, the bill should not pass.

3d. Under the present system, the State is absolutely secured against loss by local treasurers from any cause whatever. By the provisions of this bill, the treasurer is required to execute a bond in a sum of not less than \$100,000.

Upon approval of the same by the Governor, he may at once draw the entire amount appropriated to all of the institutions which is estimated by the Secretary of State at \$265,000 for the present year.

In the one case there is not the slightest chance for a loss. In the other, it is hazardous, to say the least.

4th. It relieves the superintendents to a great extent of the responsibilities that should rest upon them. It places them in a position where influence, experience and their knowledge of the wants, and requirements of their several institutions are subordinate to the whims, and caprice of men who perhaps know nothing of the internal management of them, or what should be the wisest policy to adopt in the care of our criminals, our insane, or the education of the blind, and deaf and dumb. Strictly speaking, the bill says to the superintendents, you are not competent to manage the internal affairs of your institution; cannot employ even a dish washer, but the matter must be relegated to a committee of three, on an annual salary of \$3,000 each.

5th. It unjustly discriminates. A class of men who by a long and successful business career, of excellent judgment, eminent for integrity, well qualified in every particular to fill that responsible position, are proscribed and disqualified for the reason only, that they have passed the age of fifty years.

6th. The powers conferred upon the commissioner, who shall have a general oversight and control of our jails, and poor houses, are far too despotic, and should never be given to any one man. He could under the provisions of this bill, compel Rock county to build a new jail, a new county house, more still—direct how they should be built—could remove our paupers and criminals to other localities, regardless of the expense to the county; could suspend from office our sheriff, and superintendent of poor, temporarily at least; could prescribe the clothing and food for the above named classes; could in fact usurp all the duties with reference to those classes, that we now delegate to a board of thirty able, careful, humane men.

This bill, if passed, would add still more to the expense of running our State

institutions, and creates four more fat offices to be eagerly sought, and scrambled after by designing men, and will not prove more effective in correcting abuses that may have crept into the management of some of our institutions than is afforded by the present laws.

If the best interests of the State demand a change, it would be well to abolish the State board of charities and reform, and give to the Governor the power to appoint. Let him appoint three Senators, whose terms hold over, whose duties should be to visit once in each year, or often if necessary, each charitable and penal institution. Let them have free access to all books, papers, and all that pertains to the institutions, and have full power to correct all abuses if any exists. Let them hold each superintendent and members of the boards strictly responsible for the faithful performance of their duties, and report annually to the Governor.

Fix their compensation not to exceed ten dollars per day for time actually engaged, and all necessary expenses paid. A faithful supervision of our State institutions under this plan, would be much less expensive than that of Senator Sutherland's and would promise equally as good, if not better results.

1881.

We will open this week \$20,000 of New Goods for the winter months of 1881. Our large sales for the past three months have reduced our stock so that we are able to buy nearly a full assortment in all departments, of the newest and latest styles for the next 90 days. We have no old stock to close out, but buying at this time of year we can sell you new, fresh, stylish goods at 10 per cent. less than former prices: on all kinds of Domestic, such as Canton Flannels, Gingham, Prints, Shirtings, Denims, Tickings, &c., 5 per cent. less than any house in the city, and will continue to do so as long as we are in business. Black and Colored Cashmeres we bought last April when those goods were lower than ever known before. Our Black Cashmeres that cost us 90c are now worth in the market 1.07 1.2, so houses buying from day to day have to pay the advance prices in the busy season. We make a specialty of Kid Gloves, never out of a No. or Button in the leading brands of Kid Gloves. We commence the year of 1881 with a complete assortment of all kinds of First Class Dry Goods.

THE YELLOW-FEVER COMMISSION which went from the United States to Havana to give special study to that disease have given careful examination to the blood of patients affected with it and also to the air of the infected districts. They have not been able to discover any germ or organism that could give rise to it.
PROBABLY few persons, while watching the light of the glow-worm or firefly, have failed to wonder and speculate as to its cause. A French naturalist, after a series of observations, believes the glow-worm's phosphorescence to be due to an emission of phosphuretted hydrogen gas.
C. V. KILEY maintains that the army-worm in the latitude of St. Louis develops four generations annually; that its common mode of hibernating is not in the egg or chrysalis, but in the larva state, and that the injurious brood is that which succeeds the hibernating one, or, in other words, the progeny of the moths of the hibernating larva.
It is a popular sanitary error to think that the more a man eats the fatter and stronger he will become; to believe that the more hours children study the faster they learn; to conclude that if exercise is good, the more violent it is the greater is the benefit; to imagine that whatever remedy causes one to feel immediately better is good for the system, regardless of the ulterior effects. Despite the advance of hygienic science, these mistaken ideas remain a monument to the public apathy concerning health matters.
NEAR Beaver Lake, in the National Park of the Yellowstone, a recent party of explorers came upon a remarkable mountain of obsidian or volcanic glass, which rises in columnar cliffs several hundred feet in height. It being desirable to pass that way, the party cut a road by building huge fires on the glass to heat and expand it and then dashing the cold water of the lake against the heated surface—the sudden contraction thus produced breaking large fragments from the side of the mountain. In the grand canyon of the Gibson River the explorers also found precipices of yellow, black and banded obsidian rising hundreds of feet. The natural glass of these localities has from time immemorial been dressed by the Indians to tip their spears and arrows.
How's the Baby?
"How's the baby?" "His crop is better this morning, thank you, we gave him some 'Loomas' Electric Oil as you advised, doctor, and shall give him some more in an hour or so." Next day the doctor pronounced the youngster cured.

HOME AND FARM.
A WEAK solution of sugar of lead will set the color in most washable goods and will keep the tints in harmony.
For chicken cholera it is recommended to boil one bushel of smartweed in ten gallons of water down to three gallons, mix the decoction with the fowls' food twice a day for three days, then every other day for a week.
PICKLED PEARS.—Ten pounds of pears, three pounds of light brown sugar, one quart of vinegar, one ounce of cinnamon, one ounce of cloves (ground); put all together and boil till the pears are tender; skim the pears out and let the sirup boil half an hour longer.
TO WASH A MUSLIN DRESS.—Make a good lather, and wash the muslin in cold water—never putting it into warm water to rinse it. If the muslin is green, add a wineglassful of vinegar to the water in which it is rinsed; if lilac, the same quantity of ammonia. For black and white muslins use a small quantity of sugar of lead.
FRIED ONIONS.—To fry onions properly they should be cut crosswise, so as to form undivided rings; drain them well and fry them in plenty of beef-dripping for five or six minutes; drain, sprinkle with salt, and serve. Fried onions form the proper accompaniment to broiled steak and fresh herrings. The Turks make a delicious dish by laying a number of poached eggs on a thick bed of fried onions.
As a rule, when a horse breaks his leg he is knocked in the head as useless, but it seems this is not by any means necessary, and, if the beast is worth saving, it can be saved. Two months ago a valuable horse belonging to Charles E. Smith, of Stony Brook, had his leg broken at Port Jefferson. The broken bone was set, and the leg was imbedded in plaster of Paris. In two weeks the horse could walk around the stable; in three weeks the owner drove him home, a distance of five miles, and three weeks after, the horse was driven to a road-wagon a mile in four minutes.
PICKLED TOMATOES.—This receipt is good for about a gallon of ripe tomatoes, and is as simple as it is excellent. Don't wash the tomatoes, unless they are soiled with dirt. Wipe quite clean. Do no use over-ripe fruit. With a needle prick the tomatoes in two or three places. Place tomatoes, whole, in a jar, putting in a layer of salt and then one of tomatoes, whole. Let it thus stay for a week. When ready, take out the tomatoes and mix with the salt two tablespoonfuls of mustard, four ounces of ground ginger, four ounces of roughly broken pepper, one ounce of cloves, and six ounces finely sliced. Replace tomatoes as before, and pour cold vinegar over the whole. No boiling of vinegar necessary.
THE winter is the time to buy tools. Every farmer should, at this season of the year, determine what implements he will need for the next year, and make arrangements for procuring them. If a mowing-machine is to be bought, let him take time by the forelock, and look into the merits of each kind of these machines, and buy intelligently; do not rush until the grass is ready to cut, and buy the one nearest at hand. By sending to various manufacturers, circulars with full directions and illustrations can be obtained, together with prices, etc. If a plow is needed, do all the work of selecting it before the busy season is at hand, that it may not "be on the way" just when the best work for plowing is passing. In the peace of winter prepare for summer war.

JOB PRINTING!
Our Office is Supplied with the
Best & Latest Material
For the Execution of All Kinds of
Plain and Ornamental Job Work

BRIEFLETS.

—The sale of tickets for Keene is to begin next Wednesday at Moseley's.

—Janesville Commandery meet to-night to work in the Knight Templar degree.

—Rev. Jenk L. Jones is booked for a lecture in Racine, next Monday evening, on "George Elliot."

—Miss Hattie Calkins, of Milwaukee, arrived in the city to-day, and is the guest of Miss Dottie Watson.

—John F. Morse, an old resident of Janesville, who went from here to Kansas City, is in the city, and is cordially greeted by old friends on every side.

—A. M. Carter, of Johnston, has so far recovered as to be able to put in an appearance here to-day—the first time he has come to Janesville this winter.

—Lawrence, Atwood & Lowell have leased the corner store in Myers' new block, and will occupy it as a hardware and stove store. It is one of the best sites and best stores in the city.

—All members of last year's Merry Club are requested to call at Heimstreet's drug store. All members of this year's club who have not received tickets for the masquerade are requested to call there also.

—R. W. King took a tumble on a slippery sidewalk, and now wears one hand done up in bandages. He says he'll shoot any fellow who makes an item of it. All right, blaze away, any thing for a sensation, even if it's a sensation of pain.

—David Wagner, of Afton, complained of James Bantfield for assault. The latter pleaded guilty, and Justice Brooks today fined him \$1 and costs. Bantfield has now had Wagner arrested for the larceny of \$2, and the case will be heard to-morrow.

—At a coasting party in Milwaukee, night before last, two bobsleds collided, injuring several of the coasters, but none seriously. Among the injured was Hyatt Haselton, son of our City Treasurer. He received only a slight hurt to the leg, which will keep him from business for ten days or so.

—At the annual meeting of the Woman's Foreign Missionary Society of the Janesville district held lately in Evansville, Mrs. G. F. Lane, of this city, as corresponding secretary, reported that there were in this district 12 auxiliary societies, with a membership of 358, and the amount contributed during the year was \$276. Mrs. Lane also read a memorial of the late Miss Emily Kimball, of this city.

—A colored man named James Barnes died at the jail, last night. He was picked up near the depot about ten days ago, homeless, moneyless, and sick, and has been lying in jail ever since, growing worse until death came to him. Before his death he said that his parents were on a farm near Rockford, and that his father's name was Henry Barnes, but letters and telegrams sent there have not received any answer. He was this afternoon buried in the public ground at the Oakhill cemetery.

—Mr. Charles W. Cannon, of Helena, Montana, brother of William Cannon, of this city, is in town on a visit. He has just arrived from Europe with his family, where they have spent several months in travel. During their sojourn across the waters, they have visited England, France, Italy, Germany and Switzerland, making long and pleasant visits in all the principal cities of the continent. He relates many interesting experiences in seeing the sights in Europe.

—John Bnob was injured yesterday quite badly, while busy getting ice into his brewery. He was in the large shoot, down which the big chunks were being slid, when a chunk slipped from the hands of the workmen, and before he could get out of the way it struck him with terrible force near the hips, knocking him some distance. He was insensible for a time, but rallied, and is to-day feeling very sore, but yet has hopes of soon being all right again. It was a narrow escape from fatal injuries.

—There is no excuse for a man to go from house to house begging. There are still enough sidewalks to clean, so that willing workers can at least earn their meals; and yet there are some folk with such big hearts that they don't like to refuse bread to the hungry, thinking maybe that they may be refusing to entertain an angel in disguise. Let such set the supposed angel in disguise shovelling snow or sawing wood, and if they work willingly and well, it is safe to fill them up with bread which is not from heaven. There's a good deal of charity not mixed enough with wisdom.

—There is some breakfast table which this morning missed its rye bread and codfish, a package of each having been found this morning lying near the Jackson street sidewalk at the corner of Milwaukee streets. The man could not be found. We pity him. It will be hard work for him, to explain to the satisfac-

tion of the interested parties at home, how it was that he should drop the packages there, and go off and leave them. Perhaps carrying the codfish made him dry, and then he had to take some rye, which raised such mischief with his head that he forgot his fish and bread—and perhaps not.

—Mr. and Mrs. Clinton H. Wilcox entertained about forty friends last Wednesday evening at their home, the occasion being the fifth anniversary of their marriage. The gathering was a joyous one, and the hospitality of host and hostess was shown in the attentiveness and bountifulness with which every want of every guest was cared for. The evening was spent in chatting, card playing, and other features of an informal party, and refreshments of an unusually tempting order were served. Altogether it was a most happy day of marking this milestone in the matrimonial highway, and the friends of Mr. and Mrs. Wilcox hope that worthy couple may live to see many more.

—Everybody who is interested in seeing a uniquely arranged display of fine agricultural products, should on the next visit to Chicago, drop into the office of M. Solomon, 46 South Clark street. He is special agent of the land department of the Atchinson, Topeka & Santa Fe railroad, and the decorations of his office are the products of the land along the line of that road. The display of grains, roots, seeds, etc., is a wonderful one, and the manner in which they are arranged is almost marvelous. Among the unique sights is a great roster made entirely of wheat heads, and other cereals are arranged in various equally novel designs. It is surely a sight worth seeing, and as it is a free show, no one who visits Chicago, need miss it.

Prentice and Evenson, the Druggists opposite the Post office, Janesville, Wis., keep nothing but the finest drugs and chemicals. Physicians' prescriptions and family recipes accurately prepared from pure and fresh drugs, cheaper than at any other reliable drug store in the county. All the medicines advertised in this paper are sold by Prentice and Evenson, the Druggists opposite the Post office.

THE WEATHER.

REPORTED BY PRENTICE AND EVENSON DRUGGISTS.

The thermometer at 6 o'clock last night stood at 18 degrees above; at 1 o'clock a. m., to-day at 15 degrees above; at 7 o'clock a. m., at 16 degrees above, and at 1 o'clock p. m. at 23 degrees above, Clear.

The indications to-day are cloudy weather, rain or snow, variable winds, generally shifting to northwesterly, stationary or higher temperature, and lower barometer.

THE "PEERLESS" CARRIER.

Mr. L. E. Miles has invented a new carrier which promises to take rank at once as among the best of the many inventions which Janesville brains have given birth to, as it needs but to be seen to convince one of its superior merits. We to-day saw one in working condition at the Doly manufactory; and when we say that it seems to be perfect in every detail, we only say what scores of others have said, who are capable judges of this class of mechanism. The first feature which strikes one is its evident simplicity of construction and ease of working. It has also strength and durability, all the parts being of malleable iron so arranged that the greatest strength comes to meet the greatest need. The load is held firmly by an ingenious yet simple contrivance, which is a great improvement on the usual fastenings, as it does not lock the rope and wear that off, and can never give away. The other advantages giving width and flexibility to the track, and an easy and perfect control over the load, damping the hay just where it is wanted, need to be seen to be appreciated, and when one does see it thus at work, the chosen name of "Peerless" is willingly conceded to be a highly proper one. Over fifty orders have been already received for next season, and others coming in rapidly. I. Miles & Son, who are the proprietors, are preparing to manufacture them on a large scale. The prices being lower than others, and the advantages greater, there will doubtless be a rush after them.

To Prevent Wrinkles.

A subscriber wants to know how to prevent wrinkles. The only sure remedy is "to commit suicide before you are thirty," unless every spring and fall you take Spring Blossom, which will keep your blood pure, and your skin clear until at least sixty. Prices: \$1, 50c, and trial bottles 10c. Sold by A. J. Roberts & Co. & Croft & Sherer.

FOR SALE—One of the celebrated Improved Howe sewing machines, new and in perfect running order, price low, at the GAZETTE counting room.

OUR BOARDING SCHOOL.

To-morrow evening Minnie Palmer's Gaiety troupe are to appear at the Opera house in the laughable comedy "Our Boarding School" which is said to be running over with mirth and music. The Racine Evening News of Wednesday last says of the entertainment:

Under the management of Messrs. McFarlane and Ruscoe, of this city, Miss Minnie Palmer, with her Gaiety troupe in "Our Boarding School," were greeted at Belle City hall last night, by a large and enthusiastic throng, who testified to their appreciation of the play and company by their frequent and loud applause. Minnie Palmer showed herself all that the press and public have said of her, while the company, with but two exceptions, ably supported the little lady, who made a friend of everyone in the house, and should she happen this way again, we predict for her an audience larger than Belle City hall can accommodate. It is hoped the management of the hall will not let the good work rest here, but continue to bring shows to the Belle City of as high standard as that which appeared last night, and in the near future a new Opera house will be a necessity and not a venture as now.

How's the Baby?

"How's the baby?" "His crop is better this morning, thank you, we gave him some Thomas' Electric Oil as you advised, doctor, and shall give him some more in an hour or so." Next day the doctor pronounced the youngster cured. For sale by A. J. Roberts, and Croft & Sherer.

SUNDAY SCHOOL WORKERS.

The Secretary's Report of the Annual Meeting of the Rock County Association.

The annual meeting of the Rock County Sunday School Association, began in Clinton Junction, at 3 o'clock on Tuesday afternoon, closing at noon yesterday. This was generally considered the grandest, and most enjoyable convention ever held by the association, and we who were privileged to be there, wondered how any one interested in Sunday school work could stay away.

Rev. S. D. Peet, in whose newly and tastefully arranged church we held our session, gave the speakers and other delegates from abroad a cordial welcome, couched in beautiful language, which was pleasantly responded to by President J. T. Wright.

The minutes of previous meetings were read by the Secretary, after which the various committees were chosen, and the convention was fairly opened.

During the afternoon reminiscences of early days in the Sunday school work were given by Bros. Wright, Geo. Kellogg, and Mr. Sayre, of Fulton. These were followed by Rev. E. L. Eaton, of Madison, our musical leader, urging that the children should be brought into the preaching services of the Sabbath, even giving it preference over the Sunday school.

President Wright spoke in favor of the children's sermon, lately introduced by Mr. Sawin, into his morning services, as a successful measure in accomplishing this end. It brings in the children, and all the adults enjoy the simple words introduced for the younger people. After singing, and the benediction, the convention adjourned till 7 o'clock.

At the evening session, after song and praise service, conducted by Mr. Eaton, Mr. C. A. Willard, of De Pere, E. G. Durand, and Rev. Dr. Corwin, of Racine, and E. L. Eaton, each favored us with earnest, enthusiastic speeches, regarding the State Sunday School Assembly, which is to be held some where, in some lovely spot in Wisconsin, at some time during the coming summer. This assembly is to be carried on in a similar manner to those at Chautauqua, and Lake Bluffs.

Wednesday morning devotions were led by George Kellogg. Mr. Eaton having gone home Tuesday night, Professor J. G. Burdick, of Milton, was chosen to lead the singing. Rev. E. M. Dunn, of Milton, gave us some fine ideas in regard to what constitutes a successful Sunday school superintendent and that teacher must labor with a definite object in view—to lead souls to Christ. Here Mr. Burdick sang, by request, a song charmingly appropriate to the occasion, "I planted a vine on a beautiful hill," which was well received. Then followed discussion in regard to the teachers' work, and responsibility, in which Rev. L. Loomis, of Milton, Rev. S. D. Peet, of Clinton, and D. F. Sayre, of Fulton, participated, also Rev. Mr. Wells, of Janesville, and Rev. Mr. Dunn, of Milton. After prayer and singing, Rev. J. McLean, of Beloit, held the audience spell-bound, for nearly an hour: his theme—"What will we do for the youth this year?" J. C. Pinnab, of Milton, spoke of the impressibility, and susceptibility, of children. Rev. Mr. Wells believed in the conversion of young children. The exercises closed with song, from "Good as Gold," the book used in the convention, and the benediction followed.

Wednesday afternoon Mr. Durant and Dr. Corwin, of Racine, urged the temperance work in our Sunday Schools, with plans, &c., such as have been adopted in Racine. Discussion on temperance by Mr. Wells, and by Rev. Hill, of Beloit; also Mr. Dawson of the same city. Reports from the different schools in the county were read and questions answered.

And now, the children coming in, taking front seats, we welcomed them with a stirring song. They all joined in the singing, after which they were addressed by Revs. Loomis, Wells, and Hill, to whom they listened with unabated interest, for more than an hour.

Wednesday evening we had a grand temperance meeting, with rousing speeches by Rev. O. G. May, of Fulton; E. M. Dunn, Mr. Hill, Mr. Sayre, and Rev. C. C. Marston, of Clinton. The speakers held the interest of the whole audience, even to a seat full of small boys, till half-past nine o'clock, when we were dismissed for the night.

Thursday morning was taken up with devotions, study of the lesson for next Sunday, taught by Rev. S. D. Peet, election of officers, adopting of resolutions, interchanging of kind wishes, adjournment and farewells.

A. C. BALDWIN, Sec'y.

MARRIED.

BAUER-BELLER—On Thursday evening, February 15th, at the house of Mr. M. Boub, by Rev. Wm. F. Brown, of the Presbyterian church, Mr. JOSEPH BAUER and Miss EVELINE HELLER, both of this city.

A large company of friends wished them any amount of happiness, which will doubtless be realized.

COMMERCIAL NEWS.

JANESVILLE MARKETS.

Reported for the Gazette by Bump & Gray, Grain and Produce Dealers.

JANESVILLE, February 16.
